PeopleFluent OrgPublisher

Inform Business Decisions with Intuitive Org Charts and Dynamic Reporting

PeopleFluent OrgPublisher can help you better visualize and understand your workforce. Our innovative software pulls and organizes data from multiple sources—including ERPs, HRIS, payroll, and applicant tracking systems—to create dynamic, hierarchical organizational charts that provide deep visibility into your organization.

With more than 50 pre-built workforce reports, OrgPublisher streamlines reporting and enables quick, secure access to key performance indicators within the context of your organizational structure.
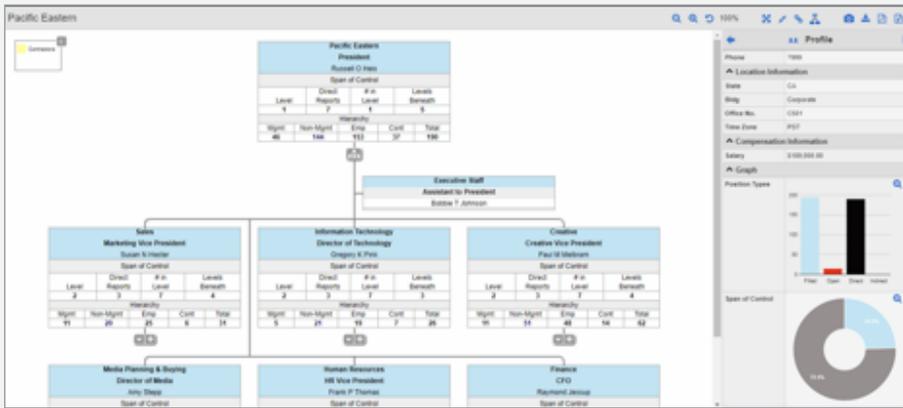

Together, these powerful features deliver the workforce visualization, reporting, and insights you need to inform decisions regarding workforce planning—as well as performance, budgets, succession planning, diversity, and other critical talent management issues.

Talent Grid supports employee assessments and succession planning through visual presentation of individual potential and performance.

Key Benefits

- Streamlines organizational planning with organized access to key metrics

- Informs effective business decisions through scenario planning for M&A, reorganizations, budget, and succession initiatives

- Improves data integrity by integrating with multiple data sources to create visual representations of workforce relationships

- Enhances visibility for your workforce by enabling easy access to corporate directories

- Secures your workforce information with multiple levels of user authorization

PeopleFluent®
Recruit. Develop. Perform. Reward.

OrgPublisher delivers dynamic visualizations of organizational structure, position types, span of control, compensation, and other key information.

Key Features

- Powerful charts and graphs to visualize reporting relationships, headcount, diversity, and position management from multiple data sources

- Daily workforce analytics to empower managers with metrics at all layers within their span of control

- Conditional formatting to automatically highlight critical information

- Superior publishing and printing capabilities

Talent Grid Powers Assessment and Succession Planning

PeopleFluent OrgPublisher supports employee assessments and succession planning with a talent grid visual of potential and performance. You can create any number of talent grids per chart, with up to 25 cells configured in rows and columns for streamlined administration. You can also drill down into cell content for additional information on employees.

Tablet-Ready for Your Mobile Team

Our responsive design works on tablet devices running Chrome, Firefox, and Safari—with no plugin required. Your executives, HR team, and managers have ready access to org charts anytime, anywhere, and from any device.
